

ISES Chapter Bio

Name: Kori Dremow

Occupation: Account Manager – Meeting & Event Staging

Experience:

As a 2008 graduate of Rutgers University with a dual BA in English & Elementary Education, Kori chose a different path from which she first intended, finding herself immersed in the meetings and events industry - and loving every part of it. She has volunteered for various committees in several industry organizations, achieved her Certified Technology Specialist (CTS) certification through InfoComm, and continues to network and proudly rub shoulders with some of the most prestigious industry professionals in the area.

Her goals within IMS Audio Visual are to help meeting and event professionals deliver a message in the most efficient and effective way possible.

ISES Experience:

Kori has been an active ISES member since 2010. This is her first board position held within ISES. Although fairly new to the organization, she looks forward to providing a fresh approach to marketing and communications.
